

Pot Plants SOLUTIONS

Jiffy AllNature Trays

Are you looking for a tray which is attractive, recyclable and is better for your plants to sell in? Then the AllNature Tray from Jiffy is the perfect solution. Jiffy AllNature Trays are made from 100% recycled paper cardboard. No chemicals are used during the production of the trays. The trays are recyclable, which means less waste. The main advantage for the plants is they can 'breathe' standing in the tray as it has no bottom. Of course, it fits a CC-container perfectly.

All these advantages make the Jiffy AllNature Tray the perfect solution for any professional grower who wants to grow his plants in a complete sustainable way. The Jiffy Pot Original and R2 combine perfectly with the tray, making your way of growing even more sustainable.

Let's work together

Jiffy is the leading global supplier of growing media using renewable resources and bio-based materials. We aim to serve you, our customers in plant propagation and cultivation to achieve better results.

We can do this together by continually improving, innovating and working towards our common goals based on facts, teamwork and involvement. Let's develop sustainable plant growing solutions together: starting today!
