

Finesse/Essence

JIFFY GROWBAGS

The right Jiffy Growbag for you

Jiffy has the widest range of growbags so you get the best solution for your crop. There are two Jiffy Growbag formats: regular and EasyFill. These can be filled with our standard Jiffy Essence substrate or premium Jiffy Finesse substrate.

Jiffy Finesse

Jiffy Finesse is our premium range. Guaranteed low in sodium and chloride levels thanks to our RHP-certified production process, Jiffy Finesse Growbags are ready to use. Best for sweet peppers, soft fruit cultivated in high-tech growing systems, and other demanding crops.

Jiffy Essence

Jiffy Essence Growbags are the perfect budget choice. They are delivered ready to be rinsed and treated by the end-user. ISO-certified, OMRI-listed and suitable for USDA-certified organic produce. Recommended for tomatoes, cut flowers, hemp, etc.

All Jiffy Growbags are peat-free. They are filled with 100% high-quality coir made from the pith tissues of the coconut husk. Our coir comes direct from our own plants in Sri Lanka. It's a renewable, eco-friendly substrate with no disposability issues. Choose from High Yield, 50-50, and Husk Chips to exactly match your crop's porosity and drainage needs.

Finesse/Essence

JIFFY GROWBAGS

Why choose Jiffy Growbags?

- Ideal water-to-air ratio for root development. That means fewer diseases, higher yields, and up to 90% water savings.
- 100% coconut coir: renewable raw material with no disposability issues
- Very wide range, ensuring the perfect match for your crop

Other advantages

- High-quality, standardized, user-friendly products
- ISO-certified and OMRI-listed options
- Options for USDA-certified organic produce
- Dehydrated and compressed for easy transportation and storage
- Delivered to you anywhere in the world
- Expert advice and after-sales care

Let's work together

Jiffy is the leading global supplier of growing media using renewable resources and bio-based materials. We aim to serve our customers in plant propagation and cultivation to achieve better results. We can do this together by continually improving, innovating and working towards our common goals based on facts, teamwork and involvement. Let's develop sustainable plant growing solutions together: starting today!
