

Developing sustainable plant growing solutions together

Jiffy substrates contain peat moss derived from our Canadian peat bogs that have been independently certified to the **SCS Veriflora® Responsibly Managed Peatlands Standard**.

By choosing Jiffy substrates, you are contributing to:

- ✓ Peatland restoration and rehabilitation
- ✓ Protection of ecosystem and biodiversity
- ✓ Fair labor practices
- ✓ High product quality
- ✓ Community benefits
- ✓ Resource conservation and energy efficiency
- ✓ Safe waste management

Jiffy's Commitment to Environmental and Social Responsibility

Our peatbog operations have a focus on minimizing environmental impacts and restoring healthy ecosystems. The certification provides us with a framework to continuously improve our responsible processes, while ensuring a high quality of life for our workers and their communities and a high-quality product.
